Profile

As a Software Engineer and passionate learner, I am constantly seeking to expand my knowledge and skills in the field. I have experience with Python and various frameworks, libraries, Databases, APIs within this language, such as Flask, pandas, REST APIs and MySQL, PostgreSQL, automation. I talk more about the need for clean codes and best practices. This language has provided me with the tools to create complex and dynamic web applications, as well as data-driven software solutions. I am a problem solver. I am always looking for new challenges and opportunities to grow. Currently, I am interested in expanding my knowledge and I am excited to see what the future holds in this ever-evolving field
